All,

Sorry this took a while, but I made it through the audio and added many details, using Josh's version as the starting point.

I captured most of the questions/issues being asked by TWG members, along with our responses, so we have the record. This will help address the action items (i.e., reference sites, listings, lithology, etc) as well as identify what was said about approaches to allocations, implementation, and many other issues.

Members raised a heck of a lot of good questions and discussion points.

Gene, Ryan and Shannon should go over our responses and ensure that my summary is consistent with the intent.

Thanks, David

All -

Attached is a draft of the Sediment TWG action items - once you all review we can send the full project team for review.

Thanks,
Peter
